

## Chapter 2: Operating System

---

**Q1. Which of the following is a popular open-source operating system mentioned in the ECC syllabus?**

- A) MS Word
- B) LINUX
- C) Adobe Reader
- D) MS Excel

**Answer: B) LINUX**

**Q2. Which of the following is a popular proprietary operating system mentioned in the ECC syllabus?**

- A) LINUX only is proprietary
- B) WINDOWS
- C) LibreOffice
- D) Ubuntu

**Answer: B) WINDOWS**

**Q3. Which of the following bar displays currently running applications on the Windows desktop?**

- A) Scroll Bar
- B) Task Bar
- C) Title Bar
- D) Menu Bar

**Answer: B) Task Bar**

**Q4. Which of the following is a small picture representing a file, folder or program on the desktop?**

- A) Cursor
- B) Widget
- C) Wallpaper
- D) Icon

**Answer: D) Icon**

**Q5. Which of the following menu provides access to installed programs and shutdown options in Windows?**

- A) Recycle Bin only stores deleted files
- B) Start Menu

- C) Task Bar only shows running apps
- D) Control Panel only manages settings

**Answer: B) Start Menu**

**Q6. Which of the following is a basic drawing application mentioned in the ECC syllabus for running applications?**

- A) Adobe Photoshop
- B) MS Excel
- C) Paint
- D) MS Access

**Answer: C) Paint**

**Q7. Which of the following is a basic text editor application mentioned in the ECC syllabus?**

- A) MS Access
- B) Notepad
- C) MS Excel
- D) Adobe Photoshop

**Answer: B) Notepad**

**Q8. Which of the following allows changing the system date and time in Windows?**

- A) Task Manager
- B) File Explorer
- C) Notepad
- D) Control Panel/Settings

**Answer: D) Control Panel/Settings**

**Q9. Which of the following allows changing display properties like resolution and wallpaper?**

- A) File Explorer
- B) Recycle Bin
- C) Display Properties/Settings
- D) Task Manager

**Answer: C) Display Properties/Settings**

**Q10. Which of the following allows adding or removing a Windows component/program?**

- A) Recycle Bin
- B) File Explorer
- C) Programs and Features (Control Panel)
- D) Notepad

**Answer: C) Programs and Features (Control Panel)**

**Q11. Which of the following allows changing mouse pointer speed and button configuration?**

- A) Mouse Properties in Control Panel/Settings
- B) Notepad
- C) Task Manager
- D) File Explorer

**Answer: A) Mouse Properties in Control Panel/Settings**

**Q12. Which of the following allows adding and removing printers in Windows?**

- A) File Explorer
- B) Devices and Printers settings
- C) Notepad
- D) Recycle Bin

**Answer: B) Devices and Printers settings**

**Q13. Which of the following describes a File in the context of File Management?**

- A) A hardware component
- B) A type of printer
- C) A type of monitor
- D) A named collection of related data stored on a storage device

**Answer: D) A named collection of related data stored on a storage device**

**Q14. Which of the following describes File Naming Conventions?**

- A) Rules for internet browsing
- B) Rules for printing documents
- C) Rules for hardware installation
- D) Rules governing valid characters and length for naming files

**Answer: D) Rules governing valid characters and length for naming files**

**Q15. Which of the following describes a File Extension?**

- A) The size of a file
- B) The location of a file
- C) A suffix at the end of a filename indicating its type (e.g., .docx, .jpg)
- D) The owner of a file

**Answer: C) A suffix at the end of a filename indicating its type (e.g., .docx, .jpg)**

**Q16. Which of the following describes a File Pathway (File Path)?**

- A) The owner of a file only
- B) The complete location/address of a file within the folder structure
- C) The size of a file only
- D) The extension of a file only

**Answer: B) The complete location/address of a file within the folder structure**

**Q17. Which of the following is the default file manager in Windows used to browse files and folders?**

- A) Task Manager
- B) Notepad
- C) Windows Explorer / File Explorer
- D) Control Panel

**Answer: C) Windows Explorer / File Explorer**

**Q18. Which of the following shows details like size, type, and date modified for a file?**

- A) Control Panel Printers
- B) Notepad
- C) Recycle Bin
- D) File Property Dialogue Box

**Answer: D) File Property Dialogue Box**

**Q19. Which of the following is the correct order of storage units from smallest to largest?**

- A) Gigabyte, Byte, Terabyte, Kilobyte, Megabyte is scrambled
- B) Megabyte, Byte, Kilobyte, Gigabyte, Terabyte is scrambled
- C) Byte, Kilobyte, Megabyte, Gigabyte, Terabyte
- D) Terabyte, Gigabyte, Megabyte, Kilobyte, Byte is reversed order

**Answer: C) Byte, Kilobyte, Megabyte, Gigabyte, Terabyte**

**Q20. Which of the following is used to create a new folder in Windows?**

- A) Ctrl + F
- B) Right-click > New > Folder
- C) Alt + F4
- D) Ctrl + N

**Answer: B) Right-click > New > Folder**

**Q21. Which of the following is used to move multiple files into a folder at once?**

- A) Selecting files then Cut and Paste (or drag-and-drop) into the folder
- B) Printing the files
- C) Renaming the files individually
- D) Deleting the files first

**Answer: A) Selecting files then Cut and Paste (or drag-and-drop) into the folder**

**Q22. Which of the following is used to delete files and folders in Windows?**

- A) Right-click > Rename
- B) Selecting and pressing Delete key
- C) Right-click > Properties
- D) Ctrl + C

**Answer: B) Selecting and pressing Delete key**

**Q23. Which of the following allows recovering accidentally deleted files before permanent deletion?**

- A) Formatting the drive
- B) Emptying the Recycle Bin permanently removes files
- C) Restoring from the Recycle Bin
- D) Shift + Delete permanently removes files

**Answer: C) Restoring from the Recycle Bin**

**Q24. Which of the following is used to rename a file or folder using a shortcut key?**

- A) F7
- B) F5
- C) F2
- D) F11

**Answer: C) F2**

**Q25. Which of the following is used to search for files by name in Windows?**

- A) Task Manager
- B) Control Panel Printers
- C) Search box in File Explorer/Start Menu
- D) Recycle Bin

**Answer: C) Search box in File Explorer/Start Menu**

**Q26. Which of the following describes creating a shortcut on the desktop?**

- A) Renaming the original file
- B) Creating a quick-access link/pointer to a file, folder or program

- C) Duplicating the actual file
- D) Deleting the original file

**Answer: B) Creating a quick-access link/pointer to a file, folder or program**

**Q27. Which of the following describes the default save location behavior of many Windows programs?**

- A) Programs always save files to the Recycle Bin
- B) Programs never allow choosing a save location
- C) Programs often save files to default folders like Documents unless a different location is specified
- D) Programs always save files randomly with no default

**Answer: C) Programs often save files to default folders like Documents unless a different location is specified**

**Q28. Which of the following allows a user to find where a file is being saved while working in an application?**

- A) Checking the 'Save As' dialog box location path
- B) Checking Task Manager only
- C) Checking the Recycle Bin only
- D) Checking Control Panel Printers only

**Answer: A) Checking the 'Save As' dialog box location path**

**Q29. Which of the following describes 'Exploring the Desktop' as covered in the OS module?**

- A) Only understanding printing
- B) Only understanding internet browsing
- C) Only understanding hardware components
- D) Understanding desktop icons, wallpaper, and organization of shortcuts

**Answer: D) Understanding desktop icons, wallpaper, and organization of shortcuts**

**Q30. Which of the following is a recommended practice for 'Cleaning the Desktop'?**

- A) Organizing/removing unnecessary icons and shortcuts for a tidy workspace
- B) Deleting the entire operating system
- C) Disabling the monitor
- D) Formatting the hard disk unnecessarily

**Answer: A) Organizing/removing unnecessary icons and shortcuts for a tidy workspace**

**Q31. Which of the following describes the purpose of keeping software updated?**

- A) Removing all installed programs
- B) Making the computer slower deliberately
- C) Disabling the internet connection
- D) Ensuring bug fixes, security patches and new features are applied

**Answer: D) Ensuring bug fixes, security patches and new features are applied**

**Q32. Which of the following is used to set automatic updates for the Windows operating system?**

- A) Windows Update settings
- B) Recycle Bin
- C) Notepad
- D) File Explorer

**Answer: A) Windows Update settings**

**Q33. Which of the following key combination is used to switch between running applications in Windows?**

- A) Ctrl + Alt + Del
- B) Ctrl + Esc
- C) Shift + Tab
- D) Alt + Tab

**Answer: D) Alt + Tab**

**Q34. Which of the following key combination opens the Run dialog box in Windows?**

- A) Windows + R
- B) Windows + E
- C) Windows + L
- D) Windows + D

**Answer: A) Windows + R**

**Q35. Which of the following key combination opens File Explorer directly?**

- A) Windows + R
- B) Windows + E
- C) Windows + D
- D) Windows + L

**Answer: B) Windows + E**

**Q36. Which of the following key combination locks the computer screen?**

- A) Windows + E
- B) Windows + L
- C) Windows + R
- D) Windows + D

**Answer: B) Windows + L**

**Q37. Which of the following key combination minimizes all windows and shows the desktop?**

- A) Windows + L
- B) Windows + E
- C) Windows + D
- D) Windows + R

**Answer: C) Windows + D**

**Q38. Which of the following describes the User Interface component that displays system time and notification icons?**

- A) Start Menu
- B) Address Bar
- C) Recycle Bin
- D) System Tray (Notification Area) on the Task Bar

**Answer: D) System Tray (Notification Area) on the Task Bar**

**Q39. Which of the following file extension type represents a video file?**

- A) .exe
- B) .mp4
- C) .txt
- D) .jpg

**Answer: B) .mp4**

**Q40. Which of the following file extension type represents an audio file?**

- A) .mp3
- B) .mp4
- C) .exe
- D) .jpg

**Answer: A) .mp3**

**Q41. Which of the following file extension type represents a compressed/zipped file?**

- A) .exe
- B) .txt
- C) .jpg
- D) .zip

**Answer: D) .zip**

**Q42. Which of the following file extension type represents an executable program file?**

- A) .exe
- B) .txt
- C) .mp3
- D) .jpg

**Answer: A) .exe**

**Q43. Which of the following best describes the purpose of the 'Windows Explorer window'?**

- A) Browsing, organizing and managing files and folders visually
- B) Only printing documents
- C) Only browsing the internet
- D) Only editing text documents

**Answer: A) Browsing, organizing and managing files and folders visually**

**Q44. Which of the following describes 'Viewing Files' options such as List, Details, or Large Icons in File Explorer?**

- A) Different printer settings only
- B) Different network settings only
- C) Different display formats for how files/folders appear
- D) Different file storage formats only

**Answer: C) Different display formats for how files/folders appear**

**Q45. Which of the following is required before a printer can be added and used in Windows?**

- A) An internet browser only
- B) A compatible printer driver installed
- C) A word processor only
- D) A spreadsheet program only

**Answer: B) A compatible printer driver installed**

**Q46. Which of the following describes the term 'Directory' in file management, synonymous with folder?**

- A) A type of software license
- B) A container used to organize and store files
- C) A single file only
- D) A type of hardware

**Answer: B) A container used to organize and store files**

**Q47. Which of the following is a benefit of organizing files into folders/directories?**

- A) Reduced storage capacity
- B) Easier file management, searching and organization
- C) Increased file size permanently
- D) Automatic file deletion

**Answer: B) Easier file management, searching and organization**

**Q48. Which of the following describes what happens when a file is permanently deleted (bypassing Recycle Bin) using Shift+Delete?**

- A) The file is removed without going to the Recycle Bin, making recovery harder
- B) The file is moved safely to the Recycle Bin
- C) The file is only renamed
- D) The file is only hidden temporarily

**Answer: A) The file is removed without going to the Recycle Bin, making recovery harder**

**Q49. Which of the following is the correct term for the operating system's graphical elements like windows, icons, menus and pointers (WIMP)?**

- A) Graphical User Interface (GUI)
- B) Batch Interface
- C) Command Line Interface (CLI)
- D) Network Interface

**Answer: A) Graphical User Interface (GUI)**

**Q50. Which of the following describes the purpose of the operating system in managing hardware resources?**

- A) Coordinating CPU, memory, storage and peripheral devices for applications to use
- B) Only managing printing
- C) Only managing internet browsing
- D) Only displaying wallpaper

**Answer: A) Coordinating CPU, memory, storage and peripheral devices for applications to use**

**Q51. Which of the following key combination is used to open Task Manager directly?**

- A) Ctrl + Tab
- B) Ctrl + Shift + Esc
- C) Alt + F4
- D) Ctrl + Alt + Del only

**Answer: B) Ctrl + Shift + Esc**

**Q52. Which of the following describes 'Formatting' a storage drive?**

- A) Preparing a storage device by erasing all data and setting up a file system
- B) Copying files to a drive
- C) Renaming a drive only
- D) Printing files from a drive

**Answer: A) Preparing a storage device by erasing all data and setting up a file system**

**Q53. Which of the following is the default file manager in Windows operating system?**

- A) Control Panel
- B) Task Manager
- C) Notepad
- D) File Explorer

**Answer: D) File Explorer**

**Q54. Which of the following is used to check for and install operating system updates?**

- A) Task Manager
- B) Notepad
- C) Windows Update / Settings > Update
- D) File Explorer

**Answer: C) Windows Update / Settings > Update**

**Q55. Which of the following best describes the 'Start Menu' in Windows?**

- A) A folder for storing images only
- B) A type of antivirus
- C) A type of hardware
- D) A menu providing access to installed programs, settings and shutdown options

**Answer: D) A menu providing access to installed programs, settings and shutdown options**

**Q56. Which of the following describes 'Safe Mode' in Windows?**

- A) A mode that deletes all files
- B) A diagnostic startup mode that loads only essential drivers and services
- C) A mode used only for gaming
- D) A mode that disables the keyboard

**Answer: B) A diagnostic startup mode that loads only essential drivers and services**

**Q57. Which of the following describes 'Device Manager' in Windows?**

- A) A tool used only for browsing internet
- B) A tool used to view and manage hardware devices and their drivers
- C) A tool used only for typing documents
- D) A tool used only for printing

**Answer: B) A tool used to view and manage hardware devices and their drivers**

**Q58. Which of the following is a common file extension for compressed/zipped folders?**

- A) .zip

- B) .jpg
- C) .txt
- D) .exe

**Answer: A) .zip**

**Q59. Which of the following describes 'System Restore' in Windows?**

- A) A feature that installs new hardware
- B) A feature that formats the hard disk
- C) A feature that reverts system files/settings to a previous point in time
- D) A feature that deletes all personal files

**Answer: C) A feature that reverts system files/settings to a previous point in time**

**Q60. Which of the following key combination is used to take a screenshot of the entire screen in Windows?**

- A) Alt+F4
- B) Ctrl+S
- C) Ctrl+P
- D) PrtScn (Print Screen)

**Answer: D) PrtScn (Print Screen)**

**Q61. Which of the following operating system utility helps free up disk space by removing temporary files?**

- A) Disk Cleanup
- B) Device Manager
- C) Task Manager
- D) Disk Defragmenter is for optimizing, not cleaning

**Answer: A) Disk Cleanup**

**Q62. Which of the following operating system utility reorganizes fragmented data on a hard disk for better performance?**

- A) Disk Cleanup
- B) Task Manager
- C) Device Manager
- D) Disk Defragmenter

**Answer: D) Disk Defragmenter**

**Q63. Which of the following best describes an 'Icon shortcut' (with a small arrow overlay)?**

- A) A type of virus
- B) A type of folder only
- C) The actual original file
- D) A link/pointer to the original file or program, not the actual file itself

**Answer: D) A link/pointer to the original file or program, not the actual file itself**

**Q64. Which of the following allows setting a specific program to open automatically when the computer starts?**

- A) Startup Apps settings
- B) Recycle Bin
- C) Notepad
- D) Control Panel Printers

**Answer: A) Startup Apps settings**

**Q65. Which of the following key combination is used to open the Windows Settings app directly?**

- A) Windows + I
- B) Windows + E
- C) Windows + R
- D) Windows + L

**Answer: A) Windows + I**

**Q66. Which of the following is required before installing a new printer on a computer?**

- A) A word processor
- B) An internet browser
- C) A compatible printer driver
- D) A spreadsheet program

**Answer: C) A compatible printer driver**

**Q67. Which of the following is used to check the amount of RAM and CPU details of a computer?**

- A) Notepad
- B) Settings > System > About
- C) Recycle Bin
- D) Control Panel Printers

**Answer: B) Settings > System > About**

**Q68. Which of the following term describes files that are hidden from normal view by default in an OS?**

- A) Hidden files
- B) System files only
- C) Shortcut files only
- D) Temporary files only

**Answer: A) Hidden files**

**Q69. Which of the following key is used to view properties of a selected file quickly?**

- A) Alt + Enter
- B) F5
- C) Ctrl + P

D) F2

**Answer: A) Alt + Enter**

**Q70. Which of the following operating system tool is used to uninstall unwanted software completely?**

- A) Recycle Bin
- B) File Explorer
- C) Notepad
- D) Programs and Features / Apps & Features

**Answer: D) Programs and Features / Apps & Features**

**Q71. Which of the following term is used for the visible desktop background picture?**

- A) Wallpaper/Background
- B) Theme only
- C) Icon
- D) Screensaver

**Answer: A) Wallpaper/Background**

**Q72. Which of the following feature displays a moving image or blank screen after a period of inactivity?**

- A) Wallpaper
- B) Screensaver
- C) Taskbar
- D) Icon

**Answer: B) Screensaver**

**Q73. Which of the following best describes the purpose of 'User Account Control (UAC)' in Windows?**

- A) Disabling the internet connection
- B) Deleting files without confirmation
- C) Prompting for permission before allowing changes that require administrator access
- D) Formatting the hard disk automatically

**Answer: C) Prompting for permission before allowing changes that require administrator access**

**Q74. Which of the following describes the purpose of creating multiple user accounts on a single Windows computer?**

- A) Preventing anyone from using the computer
- B) Allowing different users to have separate settings, files, and permissions
- C) Automatically deleting all files daily
- D) Disabling internet access for all users

**Answer: B) Allowing different users to have separate settings, files, and permissions**

**Q75. Which of the following describes an Administrator account's typical privilege compared to a Standard account in Windows?**

- A) Both account types have identical, unrestricted privileges
- B) Neither account type can install any software
- C) An Administrator account has full control to install software and change system settings
- D) A Standard account has more control than an Administrator account

**Answer: C) An Administrator account has full control to install software and change system settings**

**Q76. Which of the following is used to check the total storage capacity and used space of a drive?**

- A) This PC > Right-click drive > Properties
- B) Notepad
- C) Recycle Bin
- D) Task Manager only

**Answer: A) This PC > Right-click drive > Properties**

**Q77. Which of the following term describes a program that stops responding and needs to be forcibly closed?**

- A) A normally running application
- B) A newly installed application
- C) 'Not Responding' application requiring Task Manager to end it
- D) A deleted application

**Answer: C) 'Not Responding' application requiring Task Manager to end it**

**Q78. Which of the following describes the purpose of 'Ease of Access' or 'Accessibility' settings in an operating system?**

- A) Only for gaming purposes
- B) Providing features to assist users with different abilities, such as screen readers or magnifiers
- C) Only for advanced programmers
- D) Only for changing wallpaper

**Answer: B) Providing features to assist users with different abilities, such as screen readers or magnifiers**

**Q79. Which of the following key combination is used to close the currently active window/application?**

- A) Ctrl + W
- B) Alt + F4

- C) Ctrl + F4
- D) Windows + D

**Answer: B) Alt + F4**

**Q80. Which of the following key combination minimizes all open windows and shows the desktop?**

- A) Windows + D
- B) Windows + Tab
- C) Windows + E
- D) Windows + R

**Answer: A) Windows + D**

**Q81. Which of the following describes the correct process to change the desktop wallpaper in Windows?**

- A) File Explorer > New Folder
- B) Right-click desktop > Personalize > Background
- C) Task Manager > End Task
- D) Recycle Bin > Empty

**Answer: B) Right-click desktop > Personalize > Background**

**Q82. Which of the following file extension is used for a plain text file?**

- A) .xlsx
- B) .docx
- C) .txt
- D) .pptx

**Answer: C) .txt**

**Q83. Which of the following file extension is used for Word documents?**

- A) .pptx
- B) .docx
- C) .xlsx
- D) .pdf

**Answer: B) .docx**

**Q84. Which of the following file extension is used for Excel spreadsheets?**

- A) .xlsx
- B) .pptx
- C) .docx
- D) .txt

**Answer: A) .xlsx**

**Q85. Which of the following file extension is used for PowerPoint presentations?**

- A) .xlsx

- B) .pptx
- C) .txt
- D) .docx

**Answer: B) .pptx**

**Q86. Which of the following file extension represents an executable program file?**

- A) .jpg
- B) .mp3
- C) .txt
- D) .exe

**Answer: D) .exe**

**Q87. Which of the following describes the purpose of the 'Recycle Bin' in Windows?**

- A) A location for storing network configuration
- B) A location for storing installed programs
- C) A location for storing system settings
- D) A temporary storage location for deleted files before permanent removal

**Answer: D) A temporary storage location for deleted files before permanent removal**

**Q88. Which of the following key is used to refresh the current window or desktop view?**

- A) F7
- B) F5
- C) F11
- D) F2

**Answer: B) F5**

**Q89. Which of the following describes the purpose of 'Notification Center' or 'Action Center' in Windows?**

- A) Displaying only email messages
- B) Displaying only calendar events
- C) Displaying only weather updates
- D) Displaying system notifications and quick access to common settings

**Answer: D) Displaying system notifications and quick access to common settings**

**Q90. Which of the following best describes a Graphical User Interface (GUI) compared to a Command Line Interface (CLI)?**

- A) Neither GUI nor CLI is used in modern operating systems
- B) GUI and CLI are exactly the same thing
- C) GUI uses visual elements like icons and windows, while CLI relies on typed text commands

D) CLI always uses icons, while GUI always uses text commands (reversed)

**Answer: C) GUI uses visual elements like icons and windows, while CLI relies on typed text commands**

**Q91. Which of the following describes the purpose of a system's 'Boot Sequence' or 'Boot Order'?**

- A) The order in which the computer checks devices for an operating system to load during startup
- B) The order in which printers are added
- C) The order in which files are deleted
- D) The order in which programs are installed

**Answer: A) The order in which the computer checks devices for an operating system to load during startup**

**Q92. Which of the following operating system feature allows a user to search for installed programs and files quickly from the Start Menu?**

- A) Windows Search
- B) Control Panel Printers
- C) Recycle Bin
- D) Notepad

**Answer: A) Windows Search**

**Q93. Which of the following describes the purpose of 'Power Options' settings in Windows?**

- A) Managing printer settings only
- B) Managing file permissions only
- C) Managing internet connectivity only
- D) Managing how the computer uses power, including sleep, hibernate, and shutdown behavior

**Answer: D) Managing how the computer uses power, including sleep, hibernate, and shutdown behavior**

**Q94. Which of the following power state saves the current session to RAM with very low power usage, allowing quick resume?**

- A) Hibernate saves to disk, not just RAM, for very low power use
- B) Restart closes and reopens the OS entirely
- C) Shutdown completely powers off and closes the session
- D) Sleep Mode

**Answer: D) Sleep Mode**

**Q95. Which of the following power state saves the current session to the hard disk, allowing power to**

**be completely turned off with faster resume than a cold boot?**

- A) Sleep keeps some power flowing to RAM
- B) Restart closes and reopens the OS entirely
- C) Shutdown does not preserve the session for quick resume
- D) Hibernate

**Answer: D) Hibernate**

**Q96. Which of the following describes 'Windows Explorer' (File Explorer) address bar function?**

- A) Displaying only file names with no path
- B) Displaying only file sizes
- C) Displaying only file creation dates
- D) Displaying and allowing navigation to the current folder path/location

**Answer: D) Displaying and allowing navigation to the current folder path/location**

**Q97. Which of the following term describes a set of files and settings unique to each user account on a shared computer?**

- A) System File is shared across the OS generally
- B) Driver File is hardware-related, not user-specific
- C) Registry File stores system-wide and per-user settings, but 'User Profile' is the broader term here
- D) User Profile

**Answer: D) User Profile**

**Q98. Which of the following describes the purpose of regularly restarting a computer as basic maintenance?**

- A) Formatting the hard disk automatically
- B) Disabling the internet connection permanently
- C) Clearing temporary memory and resolving minor software glitches
- D) Permanently deleting all installed software

**Answer: C) Clearing temporary memory and resolving minor software glitches**

**Q99. Which of the following describes 'Explain file size abbreviations' as covered in the syllabus (bytes, kilo, mega, giga, tera)?**

- A) Understanding units used to measure printer speed only
- B) Understanding units used to measure monitor brightness only
- C) Understanding units used to measure internet speed only
- D) Understanding units used to measure the size of digital files and storage

**Answer: D) Understanding units used to measure the size of digital files and storage**

**Q100. Which of the following correctly orders file size units from smallest to largest?**

- A) Byte < Kilobyte < Megabyte < Gigabyte < Terabyte
- B) Terabyte < Gigabyte < Megabyte < Kilobyte < Byte is reversed
- C) Megabyte < Byte < Kilobyte < Terabyte < Gigabyte is scrambled
- D) Gigabyte < Terabyte < Byte < Kilobyte < Megabyte is scrambled

**Answer: A) Byte < Kilobyte < Megabyte < Gigabyte < Terabyte**
