Important Question/Answer

Chapter:1 Introduction to computer

Q:1 Who is the father of computer ?

Ans: Charles babbage .

Q:2.First super computer of india?

Ans: PARAM 8000

Q:3 When is it called when a computer prints a report ?

Ans: Hard copy

Q:4 First fully electronic computer?

Ans: ENIAC

Q:5 First microprocessor is ?

Ans: Intel 4004

Q:6 which following is the fastest, biggest, expensive computer?

Ans: Super computer

Q:7 which memory is used to reads and writes data simultaneously

Ans: RAM (Random access memory)

Q:8 Most common pointing device is ?

Ans: Mouse

Q:9 In Fourth generation speed of microprocessor was measured in ?

Ans: PICO second

Q:10 In which generation semi conductor transistors was used ?

Ans: Second gen.

Q:11 Full form of MAR ?

Ans: Memory address register

Q:12 What is the full form of EBCDIC ?

Ans: Extended binary coded decimal interchange code

Q:13 Which components is called the brain of the computer ?

Ans: CPU(Central processing unit)

Q:14 Measuring speed of printer ?

ZED-KING INSTITUTE

Ans: CPM ,LPM,PPM

Q :15 Who is the father of personal computer ?

Ans: Edward Robert

Q:16 In which generation Microsoft window was invented ?

Ans: 4th gen.

Q:17 which device is uses printed text into Input ?

Ans: OCR (optical character reader)

Q:18 BIOS stand for ?

Ans: Basic input-output systems

Q:19 which computers are used in railway reservation center ?

Ans: Mainframe

Q:20 which language is generally used in business activities ?

Ans: COBOL

Q:21 which is a pen based input device used to enter information orwrite on a phone touch screen?

Ans: Stylus

Q:22 which device is used to direct input of printed text ?

Ans: OCR (Optical character readers)

Q:23 which is an example of both input and output ?

Ans: Monitor

Q:24 1 Yottabyte is equal to ?

Ans: 1024 ZB

Q:25 From which word computer was originates ?

Ans: Compute

Q:26 Which is a Both volatile & non volatile memory ?

Ans: PROM, EPROM, EEPROM

Q:27 which input device is used to converts the printout into digital data ?

Ans: Scanner

Q:28 which method is used in modern digital computers?

Ans: Binary number system

Q:29 VLSI based on which generations?

Ans: 4th generation

Q:30 In which year Micro processor was invented ?

Ans: 1970

Q:31 which printer uses a laser light beam to engrave an image on a

ZED-KING INSTITUTE

photographic drum?

Ans: laser printer

Q:32 Which one produce the most noise ?

Ans: Dot matrix printer

Q:33 which is not a peripheral device from the computer point of view?

Ans: Mother board

Q:34 ENIAC & EDSAC are the example of which gen. computer?

Ans: First

Q:35 what is the list of instruction used by the computer called ??

Ans: Program

Q:36 Types of Buses ?

Ans: Data bus ,Address bus ,Control bus

Q:37 which device is used to print high quality vector graphics?

Ans: plotter

Q:38 which device is used to convert audio data into digital data?

Ans: Sound card

Q:39 which is the smallest computer ?

Ans: Micro computer

Q:40 Which computers are used in big companies ,banks,& government deptartments?

Ans: Mainframes computer

Q:41 Which types of computer are the mixture of both digital and analog ?

Ans: Hybrid

Q:42 How many types of computer?

Ans: 3 (Analog,digital,hybrid)

Q:43 which input or output device converts sound into electrical energy ?

Ans: Microphone

Q:44 what is the removal of error from program is called?

Ans: Debugging

Q:45 which devices are used in applications like CAD ?

Ans: Plotter

Q:46 Which symbols are there in the hexadecimal number system ?

Ans: 0-9 ,A-F

Q:47 Are shareware and open source software are same ?

ZED-KING INSTITUTE

Ans: False

Q:48 How many types of Digital computer ?

Ans: Micro computer , Mini computer , Super computer, mainframe computer

Q:49 By whom the first super computer of india developed ?

Ans: C-DAC

Q:50 World's first super computer is ?

Ans: CRAY-1

Q:51 In which year first super computer was built ?

Ans: 1976

Q:52 which computer is used to represent physical quantity ?

Ans: Analog computer

Q:53 ECG, & MRI are example of ?

Ans: Hybrid computer

Q:54 Full form of FORTRAN ?

Ans: formula translation

Q:55 Which is the fastest supercomputer in the world ?

Ans: Fugaku

Q:56 which of the parts of the computer can be physically touched ?

Ans: Hardware

Q:57 Types of RAM ?

Ans: SRAM, DRAM

Q:58 what is a set of binary numbers called ?

Ans: Nibble

Q:59 what is the full form of Bit ?

Ans: Binary digit

Q:60 ENIAC stand for ?

Ans: Electronic numerical integrator & calculator

Q:61 Full form of GIGO ?

Ans: Garbage in Garbage out

Q:62 What was the first commercial computer ?

Ans: UNIVAC

Q:63 Parallel Port is used for which device ?

Ans: Printer

Q:64 Types of ROM ?

Ans: MROM , PROM, EPROM

Q:65 Small graphics displayed on desktop is called?

ZED-KING INSTITUTE

Ans: Icons

Q:66 Cache memory is made up of?

Ans: SRAM

Q:67 EDVAC full form ?

Ans: Electronic discrete variable automatic computer?

Q:68 In which year the mini computer was developed?

Ans: 1965

Q:69 EDSAC stand for ?

Ans: Electronic delay storage automatic calculator

Q:70 What is the full form of SSRAM ?

Ans: special SRAM

Q:71 How many year does the data remain safe in the pen drive ?

Ans: 10 year

Q:72 Maximum storage capacity of blue ray disc?

Ans: 50 GB

Q:73 Capacity of 8 inch floppy?

Ans:1.44kb

Q:74 What type of a software is antivirus software?

Ans: Utility software

Q:75 Which company made the first hard disk?

Ans: IBM

Q:76 Speed of a computer processor measured ?

Ans: HZ

Q:77 MS DOS developed in?

Ans: 1981

Q:78 Magnetic disks , called platter that recore and store data is?

Ans: HDD

Q:79 which type of software is designed to solve a specific problem and a specific task?

Ans: Application software

Q:80 which software converts assembly level language to machine level language ?

Ans: Assembler

Q:81 Present generation is based on?

Ans: AI

Q:82 The quality of printer is usually measured by ?

ZED-KING INSTITUTE

Ans: DPI

Q:83 which identified unnecessary files in the hard disk ,remove themonly when the user gives permission ?

Ans: Disk cleanup

Q:84 Main components of CPU?

Ans: ALU,CU,Memory

Q:85 What will we do to see the properties of an object by mouse?

Ans: right clicking

Q:86 what is restarting a previously started computer called?

Ans: Warm booting

Q:87 CPU is also Known as ?

Ans: Microprocessor

Q:88 what is a blink symbol on a computer monitor?

Ans: Cursor

Q:89 Base of decimal number system ?

Ans: 10

Q:90 IBM stands for ?

Ans: International business machine .

Q:91 WORM stands for ?

Ans: Write once reads many

Q:92 Spam are related to ?

Ans: Computer threats

Q:93 Technology used in 3rd gen?

Ans: Integrated circuits (IC)

Q:94 The smallest unit of store data is ?

Ans: Bit

Q:95 largest unit of store data is ?

Ans: PB(peta byte)

Q:96 Compiler ,Interpreter, Assembler are example of?

Ans: System software.

Q:97 Which computer is works on client-server system ?

Ans: Microcomputer

ZED-KING INSTITUTE
